

- Product** - Moving coil panel
- Model** - ST-58 E
- Movement**
- DC moving coil Taut Band suspension type
 - Class 2.0
 - Range 1mA
 - A DC calibration possibility up to 1A with internal shunt and from 60mV DC with resistance multiplier
- (for currents above 1 A DC should use external shunt of 60mV)
- Construction**
- Front on acrylic resin, box with ABS chassis and metal casing cover
 - Fixing with two threaded studs
 - Case and frame in black and white scale
 - Red tube pointer
- Standard scales**
- Scales and finishes on demand

Mechanical dimensions (all in mm)
